Ed, the barber, has a new shop next to Packer & McKenna's.

Jacob Harris has a notice under the head of new advertisements.

Goldman & Co's. store, here, as well as at Picket Post, is doing a very large business.

Geo. Weeks, chief quartermaster, advertises for proposals for transportation, in this issue.

The ladies of the Presbyterian church propose holding a festival on Friday evening, March 14th.

Judge Hilands, a few days since, fined a Mrs. Hennessey \$10 for disturbing the peace.

Constable Blankenship gives notice that he has taken up and has for sale a sow and six pigs.

The teams of W. E. Williams left Texas Hill last Saturday loaded with 11,825 pounds of freight for Jno. R. Dahl & Co.

Snyder & Torbett, of Salt Wells, have bought the Big Bug station on the Black Canyon road, between Phoenix and Prescott.

Lumber for Dr. Goodrich's two-story brick building will arrive the latter part of the week, when work will be pushed forward to completion.

A large number of fruit and ornamental trees will arrive from Prescott the latter part of this week for C. E. McClintock, the "solid" man of the Herald.

All who are interested in having good singing at church services are invited to attend a practicing class at the church building next Friday evening.

The trustees of this school district advertise for proposals for the construction of a school building in accordance with the act passed by the last legislature.

Miss Lucas, who has had charge of the school in District No. 5, west of town, has changed to that of the Mesquit. Lack of funds in the former district the cause.

L. P. Nash, charged with violating the revenue laws by conducting a wholesale liquor establishment without license, will have a hearing before Judge Bolan next Tuesday morning.

Dr. Conyers is now occupying his new store, adjoining his former location. It is much larger than the old one, something much needed, as his stock of drugs and chemicals constantly arriving are very large.

Indian Inspector Hammond has been ordered to report upon the Phoenix Indian reservation, and will and he will arrive here today. He waited at Yuma to confer with Gov. Fremont, who passed there last Friday night en route to Washington.

Simon Novinger left by yesterday's stage to pay a visit to the old folks back in Pennsylvania. Mr. Novinger has resided in this valley for many years, has amassed quite a fortune, and is one of our best citizens. He will be absent about three months.

In the case of Copeland vs. Sam Wing et al., last Saturday, before Judge Bolan, the jury returned a verdict in favor of plaintiff for \$112.50. The Chinaman damaged certain property belonging to plaintiff by constructing a ditch over the same.

The company of Indian scouts stationed at Camp Verde, has been ordered to report to the commanding officer at Camp McDowell for acting duty from that post. Scout Assistant Surgeon George Scott Oldmixon will accompany the Indian scouts to Camp McDowell.

The Great Eastern Circus, under the management of George Ryland, gave a performance last night to a large and appreciative audience. This is without doubt the best show that has ever visited Arizona, and Mr. and Mrs. Ryland make hosts of friends wherever they go. The tumbling was very good, and the equestrianism of Mrs. Ryland was highly complimented. Tracy is a witty and mirth-provoking clown and kept the large audience in a continual uproar. The performance to night will consist of an entire change of programme, and we advise everyone to go early in order to secure seats.

# Southern Pacific Railroad Matters.

From our special reporter we get the following items of interest in regard to matters at the railroad front:

Side-tracks and turn-table are now being put in for a new station to be called Stanwix, 21 and 3-10ths miles east of Texas Hill. The first regular train is to run out there on Monday, and the following time-table is to take effect on and after next Monday, March 2d, on and after which date two trains will run—one each way—daily:

LEAVE. ARRIVE.

8:00 A. M. Yuma. 4:25 P. M.

8:50 " Gila city. 3:38 "

9:45 " Adonde. 5:40 "

12:15 P. M. Texas Hill. 12:15 "

(Texas Hill is a meeting and passing place.)

ARRIVE. LEAVE.

2:15 P. M. Stanwix. 10:15 "

The following is a correct table of distances,

FROM YUMA. FROM S. F.

Yuma. 0 730.9

Gila city. 15.7 746.6

Adonde. 30.0 766.9

Mohawk summit. 56.1 787.0

Texas Hill. 63.7 794.6

Stanwix. 85.0 815.9

The track is laid for six or eight miles beyond the new station, which it was at first proposed to establish at a point some four miles further east than it is; but the present location was decided upon in order to afford greater facilities for reaching the famous Agua Caliente (Hot Spring) to which it is expected there will be much travel. These springs are said to have no superior for the cure of rheumatic affections.

Grading parties are reported at work as far ahead as near Gila Bend, some forty miles east of Stanwix. Tracklaying has been seriously retarded during the past three weeks by delays in receipt of rails. These are not going forward at the rate of about one and a half miles daily.

As grading is now so far ahead of the track and as the supply of ties on hand is nearly enough to finish the road to Maricopa, if no further delay is experienced in shipment of rails the remaining 75 miles to that point may be expected to be laid by April 20th, or by May 1st at latest.

Klein has already moved one of his portable hotels to Stanwix, with a staff of cooks, etc., and will be ready by tomorrow to feed travelers and the usual "camp-followers" of a railroad terminus. The Tucson stages will drive from Stanwix direct to Berk's Station, on the old stage road. This Stanwix must not be confounded with the old stage station of that name, on the Gila from which it lies some eight miles south. The pile-driver train is now at work on the bridges in the Mohawk Gap, everything in that line being finished this side of there. After finishing these bridges there will be little for the pile driver to do till the road gets to Oatman Canon. Texas Hill has been a busy place. Last Thursday our reporter counted there fifty-six wagons of all kinds; over half of them loaded and ready to roll out. The day before, the railroad agent had delivered 130 tons of freight. During the past two weeks the forwarding house of J. M. Barney had shipped from there over 250 tons of freight. Some twenty car-loads will be drawn forward to Stanwix, to be delivered there. Donaldson & Co., have had all the blacksmithing they could do, running two forges and six or eight blacksmiths and woodworkers all the time. They will move on to Stanwix and put up a shed. At present they are working without cover; but the thermometer stood at 95 at two o'clock Thursday in the stage office—to hot for outdoor blacksmithing. Our reporter could hear of no artesian boring going on, but learned that a very large well was being dug at Maricopa. At present all water used on trains is hauled out from Yuma; that at Adonde being good for drinking, but unfit for steam, and that at Mohawk gap being unfit for any use.—Sentinel.
